

Universal Extendible Syphon 150cm White

00796626

DESCRIPTION

Versatile and practical, the new and long double syphons can be easily installed in kitchen sinks, bathrooms, and laundry rooms.

TECHNOLOGY AND CHARACTERISTICS

High durability

ADVANTAGES

Free from unwanted odors: equipped with an anti-odor system, the product prevents the return of gases existing in the sewage pipes.

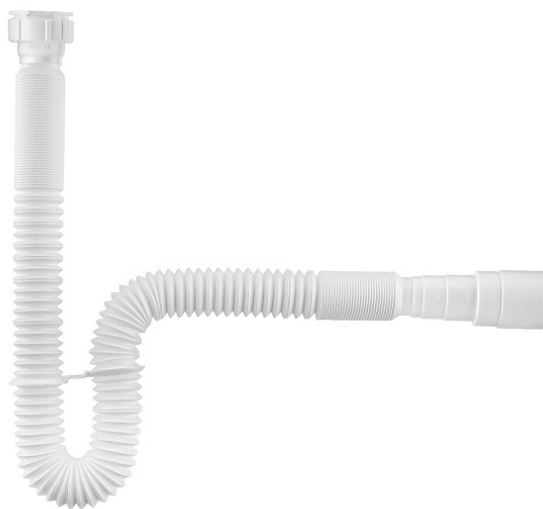

Does not require thread sealing tape: the product is equipped with sealing rings that dispense the use of thread sealing tape.

Compatibility with drain valves for kitchens, bathrooms, and laundry room basins.

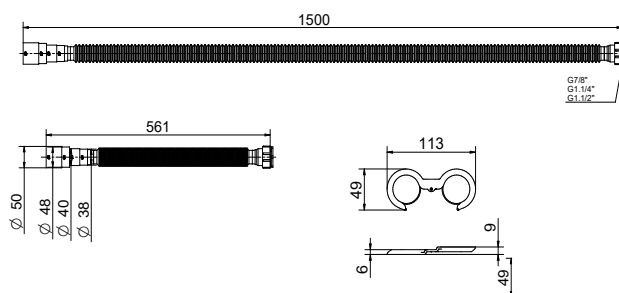

Lock: product that guarantees the 5cm for a water seal (requirement of norm).

Length of 150cm: larger than the vast majority of syphons on the Market, which allows for easy installation in hard to reach environments.

Compatibility with tubes of 40 and 50mm, with connections as well as directly to tubes.
